

Weekly Executive Brief

Chief of Staff. Week of 2026-06-08. Alex Rivera household, Austin TX. Synthetic sample.

The week in one line: three hard deadlines in six days, all touching money. Q2 tax (6/15), HVAC (6/18), Acme deliverable (6/20). Everything else queues behind these.

Critical path

When	Item	Areas	Action
Today	Send CPA consulting revenue	tax + people	Unblocks the 6/15 estimate
By 6/15	Pay Q2 estimated tax	tax	Via DirectPay once sized
By 6/18	Confirm + pay HVAC ~\$9,000	homestead + wealth	Full replacement, from cash
By 6/20	Ship Acme deliverable	career	Largest open invoice
By 7/1	Compare auto quotes	insurance	Before GEICO auto-renews

Money

- Net worth ~\$423,000. Emergency fund \$32k (drops to ~\$23k after HVAC, ~7 months PITI).
- Auto-invest \$1,500/mo brokerage + \$300/mo 529 (529 now \$18,500).
- Capital call: pay HVAC from cash, hold mortgage prepay, bind \$1M umbrella in September.

Homestead

- 4412 Bluebonnet, value ~\$485k, mortgage \$451,800 at 6.25%, PITI ~\$3,180/mo.
- 2016 HVAC failing; CoolBreeze quote ~\$9,000 full replace, service 6/18. Roof newer (2018).
- Phoenix condo nets +\$170/mo; lease thru 2027-02; July walkthrough to schedule.

Health

- LDL 142 borderline, vitamin D low. Recheck with Dr. Chen Aug 2026.
- Half-marathon 2026-11-15. Saturday long run is the anchor and helps the LDL number.

Work

- Acme deliverable due 6/20, largest open consulting invoice.
- Staff promo packet is a Q4 item. RSUs vest 8/15 (coordinate Q3 tax with CPA).
- 2027 full-time consulting decision triggers when recurring revenue clears \$8k/mo.

Decision of the week

Pay HVAC from cash. At 6.25% the mortgage is not worth prepaying while HVAC and a Phoenix trip share the same window; liquidity wins. The \$23k post-HVAC buffer is roughly seven months of PITI against two salaries, comfortable. Earmark the \$1M umbrella to bind at the September Allstate renewal: cheapest high-leverage protection given a kid, a dog, a rental, and ~\$423k net worth.
